

**Dr. Gábor Harangozó**

*Hungarian and European Patent Attorney  
Deputy Managing Partner  
Danubia Patent & Law Office LLC*

Dr. Harangozó graduated as an electrical engineer from the Budapest University of Technology in 1994, going on to receive his Ph.D. degree in data communication from the same institution in 2000. He joined Danubia Patent and Law Office LLC in 1998.

Dr. Harangozó has been a Hungarian patent attorney since 2002 and a European patent attorney since 2003. He has been a Deputy Managing Partner heading up the Engineering Patent Department of Danubia LLC since 2008.

The principal area of expertise of Dr. Harangozó includes protecting software, data communication systems, medical devices and mechanical systems. He has extensive experience in advising on patent law and competition law matters, prosecuting patent and utility model applications, as well as in patent and design litigation proceedings. He has delivered presentations at numerous conferences in Hungary and has published several articles in Hungarian and international periodicals.

Dr. Harangozó is a member of the Hungarian Chamber of Patent Attorneys, the Hungarian Association for the Protection of Industrial Property and Copyright (MIE), the Hungarian Group of AIPPI and the Hungarian Council of Copyright Experts.
