

Mr. Jan Brulík Ph.D.

Head of IP at TESCOAN

Dr. Jan Brulík was appointed Head of IP at TESCOAN in 2021 after having been a Patent specialist there since 2015.

Dr. Brulík now leads a team of three specialists covering expertise in the field of industrial and authorship rights, that handles all the necessary support activity for all subsidiaries of TESCOAN ORSAY HOLDING.

The main role of the IP department in TESCOAN is Managing the patent and trademark portfolio of the company. The team also supports R&D, sales, and product management divisions with IP consultations, it handles consultations also with a 3rd party IP and legal service. Apart from this, the section is also responsible for drafting patent applications as well as all subsequent communication with the relevant patent authorities.

Prior to TESCOAN, Dr. Brulík was a Business Development Manager in the Technology Transfer Office at the Masaryk University in Brno, where he was responsible for establishing research partnerships with industrial partners outside the university.

Before his executive roles, Dr. Brulik held research positions in Abbott Biologicals and at the University of Amsterdam in the Netherlands.

Dr. Brulík completed a MSc in chemistry and received his doctoral degree from the Masaryk University in Brno in 2016.
